

XON Kardia

COMPREHENSIVE CARDIOVASCULAR SUPPORT

The “Heart” of the Matter

Cardiovascular issues are the #1 cause of death by a wide margin and there’s been a spike in medical issues related to the blood and heart. Focus on your cardiovascular system is the best way to impact the length and quality of your life. XON Kardia is the most comprehensive and simplest way to address the wide variety of cardio-related medical challenges seen today.

Heart Health To The Power of X!

XON Kardia has taken the most powerful supplements and nutrients available for heart health and packed them into one bottle. More importantly, the product has been specifically formulated so that the ingredients work synergistically to enhance the effectiveness of each individual component.

Nutrition Meets Innovation

When you combine proven ingredients like resveratrol, CoQ10, and turmeric into a single, easy to take, daily supplement you can’t help but be rest assured you are positively impacting your heart health!

XON Kardia benefits

-  Gluten Free
-  Vegan
-  Organic
-  Antioxidant
-  Anti inflammatory
-  Brain support
-  Immune support
-  Liver support
-  Blood pressure regulation.
-  Detoxifying
-  Cardiovascular Support
-  Bone support

Answers to the most common questions:

Why is heart health important?

Heart disease is the leading cause of death in America, taking nearly 1 in 5 people. Heart disease kills more people than all forms of cancer combined. With the most recent medical issues facing our world, we see a spike in cardiovascular problems related to the blood, the heart, and vascular system.

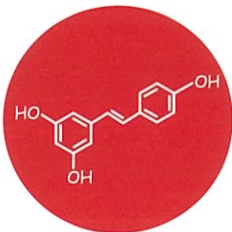

Why XON Kardia?

Xpirient worked tirelessly to research and formulate what we now call XON Kardia. The combination of nutrients and supplements address all aspects of the cardiovascular system and the threats to good heart health, including inflammation, coagulation, and other heart-related issues.

We believe XON Kardia, along with diet, exercise, and a healthy lifestyle, could support a long and vibrant life free from heart disease.

What is in XON Kardia?

RESVERATROL

Resveratrol has been found to have a tremendous impact on heart health. Studies have shown that resveratrol can lower "bad" LDL Cholesterol while boosting "good" HDL Cholesterol.

TURMERIC

Due to Turmeric antioxidant properties and its ability to help lower cholesterol, it, in turn, helps aid heart health and can reduce the risk of heart diseases. It is also known to boost brain-derived neurotrophic factors, which can combat depression and Alzheimer's.

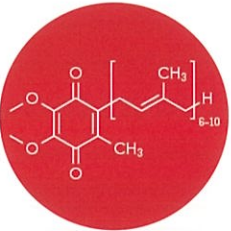

GARLIC

Garlic (*Allium sativum*) is an herb that is an excellent source of vitamin C, vitamin B6, and manganese. Garlic has also been connected to cardiovascular improvements by lowering cholesterol and reducing blood pressure. Along with lowering blood pressure and lowering the risk of heart disease, studies show garlic can increase bone health, aid in detoxification, and combat sicknesses like the common cold and the flu.

GRAPE SEED EXTRACT

Grape seed extract (GSE) is known for its abundance of antioxidants, which provide tremendous support in preventing disease and protecting against oxidative stress, tissue damage, and inflammation. It is also noteworthy, GSE is also the secret weapon that enhances the benefits of resveratrol.

COQ10

CoQ10 is a vitamin-like substance found throughout the body, especially in the heart, liver, kidney, and pancreas. It is naturally produced in the body but tends to decrease with age significantly. Reduced levels of CoQ10 are problematic because it is a compound made primarily to aid in the creation of ATP. ATP is the energy carrier for cellular function and is vital to one's health.

BLACK PEPPER

It is commonly acknowledged that black pepper is high in antioxidants which help or delay the damaging effect of free radicals. Other benefits of black pepper include providing your body with potassium, calcium, zinc, manganese, iron, and magnesium. But the most important function of black pepper is that it increases the absorption of other nutrients like turmeric due to a compound called piperine.

Can I trust XON Kardia?

Yes!

All XON Nutrition products are sent to 3rd party labs for testing and analysis.
